

Part A

Part B

P7030MB shown left, typical application with camera and EPVA shown right

INTRODUCTION

The P7030MB Argus™4 Mounting Bracket allows an Argus™4 camera to be used in a fixed location, with a quick release feature. A camera would typically be powered from an outside source and for the video to be viewed remotely used with the P7030EPVA accessory.

The P7030MB is constructed from durable materials with high resistance to heat, water and impact. No end-user maintenance is required other than external cleaning with a soft cloth.

APPLICATIONS

- Argus™4 camera in a fixed location, such as a training centre.
- Locating a camera on aerial platforms.
- Demonstrations and training.

FEATURES

- Rapid, tool-free disconnection

INSTRUCTIONS

- Fix part A to camera with screw and washer supplied set to desired angle and tighten using allen key to 2.0 Nm **Do not exceed 2.5 Nm as you could damage the camera case**
- Affix part B to fixed location
- With part B lever in position shown locate camera and when parts are pressed together they will lock automatically
- The lever can be prevented from opening by rotating the small brass pin located under the moveable lever

WARRANTY

The P7030MB is supplied with a 12-month warranty as standard.
