

# argus®

thermal imaging from Avon Protection

## Mi-TIC™

# Lithium Iron Phosphate Battery - NFPA

The NFPA battery for the argus® Mi-TIC is compact, lightweight and can operate the camera for over 3 hours. It features a thumb operated latch that allows it to be easily removed and re-attached to the camera.

The Lithium Iron Phosphate battery technology used in the packs does not suffer from thermal runaway and consequent risk of explosion typical of other common Lithium technologies making them the right choice for operation in high operating temperatures.

### PHYSICAL DATA

Material:	Radel® - 5100 / Santoprene®
Dimensions:	76 x 88 x 27mm
Weight:	175g (6oz)
Sealing:	IP67 (encapsulated)

### ELECTRICAL DATA

Battery Type:	Lithium Iron Phosphate Rechargeable
Battery Capacity:	1500mAh
Battery Life:	In excess of 3 hours
Recharging Time:	Less than 3 hours
Recharge Cycles:	Over 2000
Thermal Conditions:	-20°C (-4°F) and +85°C (185°F)

### ORDER CODE

Code	
ARG_MI_BLP SN-2	Mi-TIC Lithium Iron Phosphate Battery (NFPA)

### SAFETY DATA

Use this battery pack to maintain camera certification for Hazardous Locations.
